Tango Silent Weight Shift Step

The leader shifts weight from one foot to the other, while the follower doesn't feel it (it's a silent shift) and she continues walking backwards without interruption. This step can be done starting with the L foot as well.

- couple's common axis
- 2, B3 means move #2 of beat #3 of the foot
- 3, B1 means move #3 on beat #1 of the axis

Start

Leader walks at constant speed
